Agrolec 45R

The Agrolec 45R is the advanced developed model of the AlkElec 45R. Due to the special shape of the aluminum reflector, the radiation is send to the floor in a perfect place. No hot spot directly below the heater, but an uniform spread temperature on the floor. The heaters can be connected On/Off or High/Low.

Model	Watt	Voltage	Ampere	Dimensions
AgroLec 45R	4500	400V-3N-AC	3x6,5	148x35x9 cm
